Dear Deputy Minister,

As part of the environmental and social impacts assessment and review procedure set out in Chapter II of the *Environment Quality Act*, the Kativik Environmental Quality Commission has studied the information on the above project sent on October 20, 2014 by Mireille Paul of your department.

After reviewing the project, and in accordance with Section 192 of the *Environment Quality Act*, the Commission has decided to exempt the project from then environmental and social impact assessment and review procedure.

Given the experimental nature of this project, the Commission would like to see a report after the first year of operation on the results and any problems encountered.

Yours truly,

Peter Jacobs.
