

After examining the information in the application by the proponent, and in accordance with Section 192 of the *Environment Quality Act* and Section 23.3.14 of the *James Bay and Northern Quebec Agreement*, the Commission has decided to exempt the project from the environmental impact assessment and review procedure.

However, the Commission would like to specify that the proponent should take all measures necessary to ensure that construct debris that might be reused by the community is made available to them.

Yours truly,
